MEMORANDUM FOR: [REDACTED]

SUBJECT : City Plans

1. As I indicated some time ago we are going ahead with our city plan program. In that earlier communication I indicated several cities we had under progress and that I would submit a copy of each to you as we reached a "Preliminary" stage. Actually, as you know, the requirements here demand our printing as soon as we have reached the stage as shown on the enclosed plan of Alma-Ata. In requesting support [REDACTED] I urge you to make it clear to them that we consider this a "Provisional" stage and much desire the tapping of their sources. Therefore, will you arrange for the correction and/or addition of data that they might have in their files on each of these cities as we send them to you. We are interested, at this time, only in additions and/or corrections to the data that we have shown on the plan. Other overlay data which [REDACTED] might have may be requested at a later date.

2. For this support which we will greatly appreciate, may I suggest you find out how many copies of the city plan, as printed, would be of interest to them. We shall send the additional copies on this city and welcome a standard number on all future cities.

3. Based on [REDACTED] our own corrections and additions, we plan to prepare a revision at such time as warranted. We shall send copies to [REDACTED] of the revised plan at that time.

4. We will appreciate your reaction and that of [REDACTED] to the plan and look forward to their contribution, particularly in nomenclature.
